

Application for NPDES Permit Credit

1. Instructions

Additional information on the National Pollution Discharge Elimination System (NPDES) permit credit can be found in the South Burlington Stormwater Credit Manual, which is available online at the South Burlington Stormwater Utility (SBSU) web site (www.sburlstormwater.com). A separate application form must be submitted for each property for which NPDES fee credit is being requested. Forms must be signed by the authorized representative, or if not an individual, by an officer, director, partner, or registered agent with authority to execute contracts for the institution located on the property. Completed forms can be emailed to: stormwater@sburl.com

2. Certifications and Signatures

I hereby request that the SBSU review this application for the NPDES permit credit. I certify that I have the authority to make such a request and grant such authority for this property. I certify that the attached information is true and correct to the best of my knowledge and belief. I agree to provide corrected information to the SBSU should there be any change in the information provided herein. I understand that once credit is awarded it is my responsibility to inform the SBSU of any changes that might impact the credit awarded under this application.

By my signature below, I hereby grant SBSU staff the right to access the property for the purpose of monitoring and inspecting the stormwater treatment system and related improvements on the property to determine whether issuance of a credit is appropriate. I understand that if the stormwater system is not properly maintained, if Best Management Practices (BMPs) are no longer performed, or if the SBSU determines in its sole discretion that the property no longer complies with the terms and conditions of the applicable NPDES permit for any reason, that the SBSU can eliminate the credit awarded as part of this application.

I understand that once credit is awarded as part of this application that I am responsible for sending annual reports and copies of new or re-issued permits to the SBSU. Failure to provide this information could result in loss of the credit awarded as part of this application.
